6. Place of Use (continued)

B. Proposed:

IDENTIFY THE WATER BODY TO BE BENEFITED OR OTHER PLACE TO BE BENEFITED

(See Note #6)

7. Remarks and Other Relevant Information:

Note 1: The Applicant has donated portions of this water right to trust in the past (Ecology Control Nos. CS4-00169sb7@8 and CS4-00169sb7@9). A copy of Ecology's acceptance letter regarding those donations is attached hereto as Exhibit A. Those rights are referred to as Trust Water Right 1 and Trust Water Right 2, respectively. The applicant owns and operates a gravel mining operation on portions of the place of use of the right. The mine is operated under DNR Surface Mine Reclamation Permit No. 70-010239.

The Applicant now desires to donate an additional portion of the water described herein to the Trust while the mining of the place of use occurs. Once the mining ceases and the place of use is reclaimed, the Applicant will remove Trust Water Right 1, Trust Water Right 2 and the water associated with this application from the Trust to use the water in the authorized place of use for the authorized purpose. The Applicant proposes the applicant will notify the Washington State Department of Ecology (Ecology) by November 1 of each year and inform Ecology that the Applicant wants the water to remain in trust. If the Applicant fails to notify Ecology of its intentions, then the water automatically remains in the Trust Water Right Program for the next calendar year.

Note 2: The water right was the subject of a transfer processed through the Kittitas County Water Conservancy Board under Water Right Change Application No. CS4-00169CTCL (KITT-04-13). The Kittitas County Water Conservancy Board signed a Report of Examination (ROE) on March 29, 2005. Ecology modified the Kittitas County Conservancy Board decision on May 17, 2005.

The water right was the subject of a second transfer processed through the Kittitas County Water Conservancy Board under Water Right Change Application No. CS4-00169CTCL@7 (KITT-10-03). The Kittitas County Water Conservancy Board signed a Report of Examination (ROE) on May 24, 2010. Ecology modified the Kittitas County Conservancy Board decision on July 15, 2010.

Note 3: The complete description of the point of diversion is 500 feet south and 850 feet east from the center of Section 12, being within the NE 1/4 NW 1/4 SE 1/4 of Section 12, T 18 N, R. 17 E.W. M.

Note 4: a) 1.75 cfs; 877.40 acre feet per year for irrigation of 58.21 acres;

- b) .47cfs for conveyance loss;
- c) .233 cfs, 24.215 acre feet per year from December 1 to March 31 for stock water;
- d) April 1 to October 31 for irrigation continuous for stock water;
- e) The annual consumption quantity for this right shall not exceed 147 acre feet or 2.7 acre feet per acre.

Note 5: The applicant wishes to transfer to the Trust Water Right Program the following quantities of water:

Application No.	Purpose of Use	Acres Fallowed	Period	Instantaneous Rate (cfs)	Annual Quantity (af/y)
	Irrigation	12.00	Apr 1 - Oct 31	0.384 cfs	191.352 afy
	Conveyance	12.00	Apr 1 - Oct 31	0.096cfs	n/a
	Stock water		Dec 1 - Mar 31	0.048cfs	5.34 afy

The quantities have been determined based on the per-acre quantities identified in Ecology's June 11, 2013 letter. Specifically, 22.36 acres were fallowed under CS4-00169sb7@8 with an instantaneous rate of .710 cfs and 356.5 acre-feet. Thus, the calculations were arrived at as set forth on Exhibit B.

The water placed in trust may be used by the Trust for instream flow purposes or fish enhancement purposes so long as the water may be used for the authorized purposes when it is removed from trust.

Note 6: The portion of the water right not transferred to the Trust Water Right Program in Trust Water Right 1, Trust Water Right 2 and this donation would continue to be used for the authorized uses including the irrigation of 20 acres located within Parcel 2T of the described place of use. The portion of the right transferred to the Trust Water Rights Program shall be used for instream flow purposes or fish enhancement purposes in the Yakima River downstream from the point of diversion to the mouth of the Yakima.

Certain applications may incur a Real Estate Excise Tax liability for the seller of the water rights. The Department of Revenue has requested notification of potential taxable water right related actions and therefore may be provided with a copy of this request.

Please contact the State Department of Revenue for further information. The phone number is (360) 570-3265. The address is: Department of Revenue, Real Estate Excise Tax, PO Box 47477, Olympia, WA 98504-7477.
